

Prostate cancer: Benefits of early detection and new treatment options for advanced and metastatic disease.

This event will describe new research and guidelines supporting the benefits of PSA screening, discuss new treatment options for metastatic and castration resistant prostate cancer, and review toxicities associated with new treatment options and how to manage them.

# Speaker: Dr. Geoffrey Gotto | MD, MPH, FRCSC

**Dr. Gotto** is a Staff Urologist and Clinical Associate Professor in the Departments of Surgery and Oncology at the University of Calgary.

He completed his undergraduate and residency training at the University of British Columbia and went on to complete his Fellowship in Urologic Oncology at Memorial Sloan-Kettering Cancer Center in New York and his Masters of Public Health at Harvard. **Dr. Gotto** specializes in the management of prostate, bladder, and kidney cancer.

**Dr. Gotto** is a member of the Medical Advisory Boards for Kidney Cancer Canada and Bladder Cancer Canada. He is the Medical Director of the Clinic for Advanced and Metastatic Prostate Cancer (CAMP) at the Calgary Prostate Cancer Centre and is the Principal Investigator for a number of clinical trials in advanced prostate and bladder cancer. He is also one of Calgary's Top 40 Under 40 Alumni.
