

Virtual Workshop Consent Form

Our health service is offering virtual/online workshops using the Zoom Healthcare tool to make sure that we can continue to care for our patients safely and effectively. This means that we will be using video and audio technologies for our various workshops rather than asking patients to come into our Wellness Centre. We do our best to make sure that any information you give to us during virtual workshops is private and secure, but no video or audio tools are ever completely secure. There is an increased security risk that your health information may be intercepted or disclosed to third parties when using video or audio communication tools.

To help us keep your information safe and secure, you can:

1. Understand that video/online workshops are not secure in the same way as an in person workshop would be.
2. Use a private computer/device that is password connected. (i.e. not an employer's or third party's computer/device).
3. Use a unique email address (not shared with someone else) that is password protected.
4. An encrypted email account is more secure than an unencrypted email account.
5. Access the internet on your home network versus an open guest Wi-Fi connection.

ADDITIONAL PRIVACY INFORMATION

1. To respect your privacy and the privacy of the other workshop participants, it is important for you to be in a quiet, private space when you participate in the workshop.

4. Should you have any questions regarding this consent, please contact privacy@scpcn.ca

By providing your information, you agree to let us collect, use, or disclose your personal health information through video or audio communications (while following applicable privacy laws) in order to provide you with care. You may withdraw the option of communicating electronically at any time by providing written notice.
